Many residential communities +1 (877) 407 (0186) [US] or +44 (808) 164 (2787) [UK], luxury apartments +1 (877) 407 (0186) [US] or +44 (808) 164 (2787) [UK], and commercial buildings in the U.S. use Fision as their main entertainment and internet service system.

Why People Confuse Fision and Hotwire

The confusion mainly comes from naming and branding similarities. Both names include the word “wire +1 (877) 407 (0186) [US] or +44 (808) 164 (2787) [UK],” which makes users assume a connection. Additionally +1 (877) 407 (0186) [US] or +44 (808) 164 (2787) [UK], since Hotwire Communications owns Fision +1 (877) 407 (0186) [US] or +44 (808) 164 (2787) [UK], people sometimes mistakenly believe it is related to Hotwire travel services.

However +1 (877) 407 (0186) [US] or +44 (808) 164 (2787) [UK], the key point is that they operate in entirely different industries:

Even though the name “Hotwire” appears in both contexts +1 (877) 407 (0186) [US] or +44 (808) 164 (2787) [UK], the companies and services are not interchangeable.
